ALL YOU NEED TO KNOW

Term 2 – Maple Class

Don't forget ....

- **Wellies and coats** for the colder weather
- **Reading at home** – we ask that children read their phonics book on at least 4 occasions per week. We are starting Phase 5a Phonics this term so there will be new learning everyday which is practiced through their reading at home. Thank you!

Can you help?

We will be doing some Christmas Crafts at the end of term and would love some parent volunteers please. When dates are confirmed please let me know if you're able to help, thank you!

This term we are reading ...

Lost and Found – Oliver Jeffers

Beegu – Alexis Deacon

You can find more recommended books for here.

10.12.26	Christmas dinner and jumpers
11.12.26	Christmas Disco

Home Learning optional projects

If you would like to, please choose one project and bring it in on the first day back after the October half term.

Option A

Geography- Within our 'Where is our School?' topic, we are learning about locational language (behind, next to, between, near etc). Could you think of a place in our school and write some clues for where it is using locational language. Our class will then be able to guess!

Option B

Science- We are learning about our senses, including hearing. When you're out and about somewhere, could you close your eyes and listen for all the sounds you can hear? Write or draw what you can hear.

Option C

DT- We are learning about and making kites this term. Could you draw a picture or make a poster about a type of kite from around the world - one that looks or is used differently from the diamond kites we usually see?

You can find our yearly learning journey on our school website. This shares the units in each subject that we will teach this year.

Growing together towards life in all its fullness
